Gaining Momentum

Diffusion, or the widespread adoption of innovations, is a critical yet under-researched topic. There is a wide gap between development and successful adoption of an innovation. Therefore, a better understanding of why and how an innovation is adopted can help develop realistic management and business plans. Most books on this topic use a single-discipline approach to explain the diffusion of innovations. This book adopts a multi-disciplinary and managerial process approach to understanding and promoting the adoption of innovations, based on the latest research and practice. It will be of interest to graduates and researchers in marketing, product development and innovation courses.

Shadow Shepherd

As a former political tracker with a brand-new law degree, Sam Callahan has turned his life around, leaving behind a childhood ravaged by abuse and a fatally dangerous job shadowing political candidates. Now a lawyer, Sam hopes for a risk-free future, but harm's way has a much longer reach than he could ever expect. His very first legal client is gunned down in a Mexico City hotel, and Sam barely dodges a bullet himself. Suddenly on everyone's most-wanted list--brutal hit men, hostile cops, relentless FBI agents, and even an infamous assassin--he doesn't have the luxury of finding out why. When Sam's girlfriend is dragged into the fray by a kidnapper, Sam would do anything to save her life. The catch? He's got only twenty-four hours to do it...but any number of ways to die.

The Indian Railways Act IX of 1890

The Indian Railways Act IX of 1890 was a landmark piece of legislation that regulated the construction and operation of railways in India. This edition of the Act includes amendments made by Act IX of 1896, which expanded the scope of the original law. It is an important historical document that sheds light on the early development of India's railway system, which was a vital component of British colonial rule.
